

Vimbai Majaha

Computer Science Internship

Summary

Computer Science student with specialized expertise in AI and machine learning, complemented by hands-on experience through UNESCO's African Women in Tech and AI summer program. Passionate about developing innovative technological solutions that address real-world challenges, particularly in education and digital transformation. Strong foundation in problem-solving with a focus on creating accessible, user-centered applications.

Skills

- **AI Integration**
 - Python
- **Web & Mobile App Development**
 - Flutter, Javascript, React
- **Database Management**
 - MySQL, PostgreSQL
- **3D Interactive web elements**
 - Spline, Tailwind CSS
- **Soft Skills**
 - Willingness to learn
 - Self-Motivated
 - Team Player
 - Adaptability

Education

- **Bachelor of Science Honours in Computer Science**
Africa University **GPA: 3.96**
Relevant Coursework: 2022- 2026
 - Artificial Intelligence
 - Web Application Development
 - Data Structures and Algorithms
 - Parallel and Distributed Computing
- **Certificate in Artificial Intelligence Training Programme AWITAI - AI Movement**
UM6P - University Mohammed VI Polytechnic 2025
AWITAI Cohort 3 graduate, UM6P, OCP & UNESCO
Completed 75 hours of cohort-based training with pan-African women in tech community. The topics encompassed artificial intelligence, data science, market research, AI project management and women's leadership. Hands-on project development focused on AI solutions for educational accessibility. Mentorship and collaborative workshops on ethical AI implementation and machine learning applications for African development challenges.

Experience

License: Certified in Cybersecurity (CC) - ISC2

- **Co-Founder & Tech Lead**
FUNDISA - AI Powered SMS Chatbot Oct 2024 - Present
 - Winner of UbuntuNet Hackathon 2024, competing against 200+ participants
 - Led development of SMS-based educational chatbot making learning accessible to students in remote communities
 - Designed and implemented AI-powered LLM response system supporting both English and Shona languages

Projects

- **TFT Membership Database**
A fully integrated digital membership database
 - Built responsive complete membership management (Add, Edit, View, Delete)
 - Implemented secure role-based authentication
 - Developed real-time statistics that update automatically in a dedicated user analytics page

Vimbai Majaha

Computer Science Internship

Projects

Sunflower Solar Tracker

Designed and built a sustainable solar tracking mechanism that emulates heliotropism

- Project manager: responsible for designing timeline, gantt chart and assigning tasks
- Produced 3D prints of the project design architecture
- Developed and coded PCB algorithm to make solar panels face the direction of the sun using sensors
- Implemented LED display to show voltage and capacity
- Constructed fully. automated sustainable design that maximises on the suns energy as compared to stationary panels

International Information System Security Certification Consortium

The ISC2 Board of Directors hereby awards

Vimbai Ruth Majaha

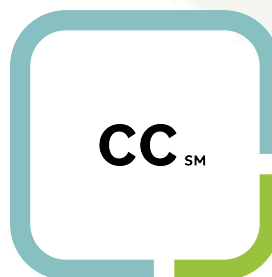

the credential of

Certified in Cybersecurity

Having met all of the certification requirements, adoption of the ISC2 Code of Ethics, and successful performance on the required competency examination, subject to recertification every three years, this individual is entitled to all of the rights and privileges associated with this designation, as defined in the ISC2 Bylaws.

James Packer - Chairperson

Guy Hermann Ngambeket
Ndiandukue - Secretary

2275945

Certification Number

Jan 1, 2025 - Dec 31, 2027

Certification Cycle

Certified Since: 2024

CERTIFICATE OF PARTICIPATION

We certify that

VIMBAI RUTH MAJAHA

has successfully participated in the

Women in Tech & AI - Summer Camp

from June 23 to July 5, 2025

The participant completed 75 hours of training encompassing the topics of :

- Artificial intelligence and data science;
- Women's leadership;
- Prospective applied to AI;
- Benchmarking, market research and AI project management;
- Case studies.

Additionally, the participant engaged in various activities, including group dynamics, presentations, and practical exercises.

Dr. Btissam EL KHAMLICH

Director of Ai Movement The International Center of Artificial Intelligence of Morocco

Mme. Hassina MOUKHARIQ

Director International Development OCP Foundation

FOR RESEARCH AND EDUCATION NETWORKING

CERTIFICATE OF COMPLETION

Dimbai Majaha

Fundisa

UbuntuNet Alliance Women Hackathon

28th - 30th October 2024

TOPICS COVERED

1. Requirements design and specification
2. User interface design
3. Software architectural design
4. Software component design using models like sequence and use case diagrams
5. Use of tools for software modelling like Pencil, Achi, Microsoft visual studio, Adobe illustrator
6. Front end development using frameworks like Laravel, Flask, tailwind css
7. Back end development using languages and frameworks like bootstrap, Flask, python
